

PRESIDENT MAKES TRUST WAR PLANS

Program Discussed in Two Hours' Conference with Judiciary Committee.

WANTS SHORT SESSION

After White House Debate It Is Said Congress Will Adopt Presidential Suggestions.

Four members of the House Judiciary Committee spent two hours in conference with President Wilson on the anti-trust program yesterday afternoon. In that time they looked over and discussed the President's special message on anti-trust legislation, listened to an elaboration of the views set forth in that message, informed the President of the lines followed in the tentative bills prepared by a subcommittee, and came away declaring that nothing in the conference indicated the future necessity of materially changing the bills which the committee has prepared.

Yesterday morning the Senate Committee on Interstate Commerce, headed by Senator Newlands, went over much the same ground in the course of a two-hour conference.

One result of the two conferences is that the leaders of both committees are prepared to include in the anti-trust program the President's interstate trade commission idea, providing for a body with fullest legislative powers, which will serve in an advisory capacity to the courts in dealing with alleged violations of the anti-trust laws. As a result the leaders in the House committee have determined to add this feature to the program tentatively determined upon, and the Senate committee understands that the President will insist upon this feature.

Four Contentions Made.

The President probably will read his message on the trust question next Tuesday or Wednesday. Only minor changes were determined upon as a result of yesterday's conferences. The message deals with the question in broad terms and bounds the President's policy with four principle contentions. These are:

1. That the legislation shall be definite in character, taking from the courts much of the discretionary power now vested there in determining what constitutes a combination in restraint of trade.
2. That guilt must be made personal, directors of sinning corporations being held directly accountable, and imposing heavy liabilities both as to fines and imprisonment.
3. Absolute prohibition against interlocking directorates among corporations which are or naturally would come in competition with one another, this to include banks, railroad lines, steamship lines, industrial and trading companies.
4. The creation of a trade commission as described above.

Secrecy Order of Day.

Only four members of the House Judiciary Committee attended the conference, though it was understood that all Democratic members had been invited. Many, however, were out of town. Those who attended the conference were Representatives Carlin, Floyd, and Webb, have taken the lead in framing the bills which it is expected the organization program will be based upon. When the President was forced to terminate the conference at 7 o'clock last night, the conference had just about started out on a practical basis, and it was decided that another conference would be held in the near future at the call of the President. Deep secrecy marked all the movements of the conference, following the session.

After leaving the President and before meeting the waiting newspaper men, the four gathered together, for all the world like a football team discussing signals immediately before or during a game, and with heads and shoulders touching, decided upon what not to tell the scribes. Then, still crowding together, they timidly advanced, and crowded around, while "Uncle Henry" Clayton, informant of the newspaper men that the four had been in conference with the President and had discussed the anti-trust question along general lines. All attempts to separate them were futile, and though it was long after dinner time, the four men live in widely different localities, they marched off across Pennsylvania avenue in the general direction of Rock Creek Park, and finally shook off the newspaper men. When last sighted they were traveling in a northwesterly direction, with their heads and shoulders still close together.

Early Adjournment Urged.

A serious attempt is being made to bring both ends of the Capitol and the White House into substantial agreement.

Beneath Your Fat a Graceful Figure Dwells

How would you like, some day, to find your own slim self, emerging from the pads and rolls of fat that have gathered on chest, hips, waist, chin, cheeks, and neck, covering up and distorting the little graceful figure beneath? Then learn the secret to remove or prevent these unbecoming deposits—control their quantity and location without paying the price of violent exercise, dieting, self-denials or impairment of health. In short, to find one's own slim self beneath the fatty sheath—has been made possible by a noted physician, whose Marmola's Prescription helped thousands of over-fat men and women to reduce safely and surely from 10 to 15 pounds per day until the natural health of the system is restored and slimness results. Marmola's Prescription Tablets, the new form of this great remedy, each contain an exact dose of the famous Marmola's Prescription. Like the original prescription, they are absolutely sure and harmless. Nearly every druggist keeps these wonderful little tablets, or they may be secured direct by mail from the Marmola Co., Farmer Bldg., Detroit, Mich. 75c for a large case is the uniform price.

GOVERNMENT RAILROAD IN ALASKA IS URGED

Delegate Wickersham Says Either Nation or Guggenheims Must Control Territory.

MAKES LONG SPEECH ON BILL

Delegate James Wickersham, of Alaska, yesterday argued for several hours in support of the Alaskan railroad bill, providing for the expenditure of \$25,000,000 for a government-owned and operated railroad.

"Shall the Federal government control Alaska or the Guggenheims?" shouted Mr. Wickersham. "We have reached the parting of the ways. It is either the nation or the Guggenheims."

Many of the members of the House are in favor of a Federal railroad in the Territory and at all times during the debate there were many interested listeners.

Mr. Wickersham urged the railroad as a government experiment, if for nothing more.

Bering River coal received a set back yesterday when Rear Admiral R. K. Griffin, chief of the bureau of steam engineering, of the Navy Department, told the House Naval Affairs Committee that all government tests of Alaskan coal had proven failures.

In the Senate, Senator Walsh, of Montana, was the principal speaker in support of the Alaska bill, which is the unfinished business of the Senate. A vote is expected soon and it is a foregone conclusion that the bill will pass, although the Republicans will vote against it as a rule.

Senator Norris, of Nebraska, offered an amendment authorizing the building and operation by the Panama Railroad of a line of steamers, numbering from ten to twenty, to ply between the ports of Alaska and those of North and South America on the Pacific coast.

Senator Jones, of Washington, gave notice of an amendment he will offer limiting the mileage of the proposed government railroad to 1,000.

Largest Morning Circulation.

REPUBLICAN UNITY URGED.

All Factions Asked to Sink Differences for Party Success.

Muskegon, Mich., Jan. 14.—Urging that all factional differences in the Republican party which might militate against success in the November State election be eliminated, Lieut.-Gov. John Q. Rose today, in an open letter to all the announced and prospective candidates for the Republican nomination for governor, invited them to meet him at his office at Lansing February 8 to decide upon one man to make the race for governor next fall.

Mr. Rose has invited to this conference Alexander J. Groesbeck, chairman of the Republican State central committee; P. C. Marindale, secretary of State; Prof. E. A. Lyman, Amos S. Musselman, and H. Vandenberg, of Grand Rapids; John J. Carlton, of Flint, president of the constitutional convention of 1907-1909; Malcolm J. McLeod, of Detroit, all gubernatorial candidates; Charles B. Warren, member of the Republican National Committee, and Louis C. Crampton, Michigan member of the national Congressional committee.

PLOT ENDS IN TWO DEATHS.

Young Turks Agent Killa Butler and Is Shot Down.

Paris, Jan. 14.—A sensational shooting affray, resulting from a probable attempt to assassinate Cherif Pasha, leader of the Turkish radicals, occurred here today. A caller, upon being refused admission to Cherif Pasha's apartments, shot and killed a manservant and a moment afterward was shot himself by a non-in-law of the Turkish leader.

Cherif Pasha has been here for some time on a political mission dealing with Turkey's attempt to gain control of Albania.

Sall Bey, son-in-law of Cherif Pasha, told the police he had shot in self-defense. The would-be assassin was identified as Ismail Hakki, an agent of the Young Turks.

BIG LUMBER COMPANY FAILS.

Judge Hears Petition of Florida Corporation.

Tallahassee, Fla., Jan. 14.—A petition was filed with Federal Judge Sheppard today by the Keyser-Muldon Company, of Pensacola, asking to be adjudged bankrupt. Liabilities total \$2,700,000, with assets aggregating \$1,700,000.

The general demoralization of the lumber business is given as the cause of the failure.

COLD WAVE HERE LOSING ITS GRIP

Mercury Dropped to Lowest Mark of Winter Yesterday, but Will Ascend Today.

Gripped during the last seventy-two hours in a cold wave, Washington today is promised relief, for the Weather Bureau says the thermometer will record about 40 degrees Fahrenheit at noon today. When the workman shakes himself from bed he will find it pretty cold, with the mercury hovering around 20 degrees above zero, but from 7 o'clock it will gradually rise.

Daybreak yesterday recorded the lowest temperature of the winter in Washington. The mercury dropped to eight above zero, while the highest temperature yesterday was twenty-seven above at 4 o'clock.

The Tidal Basin had a coat of ice in places, while the Soldiers' Home pond was frozen, as well as the Zoo pond. But it takes five days of near-zero weather to put a four-inch layer of ice on the Tidal Basin, and the police will not permit skating unless the ice is that thick.

Boats on the Potomac River were forced to plow through ice packs. The "Northland" left on schedule time for Norfolk, but the steamer "Wakelield" did not attempt a trip down the river last night. Yesterday navigation was dangerous.

The weather will relax generally throughout the United States today, according to the government's experts. Fair weather and warmer, is the prediction made for the District of Columbia, Virginia and Maryland.

Baltimore, Md., Jan. 14.—All cold weather records for the season were shattered today, when the mercury dropped to 4 degrees.

Richmond, Va., Jan. 14.—Thirteen degrees above zero was registered at the weather bureau here today, the coldest of the season. Rural sections report ten inches of ice.

New Haven, Conn., Jan. 14.—The severest cold spell in years gripped Connecticut today. The thermometer ranged from five degrees below at New Haven to thirty-two below at Colebrook.

Boston, Jan. 14.—With the temperature five below, Boston today was in the grip of the second day of the coldest wave ever recorded at the local weather bureau. The arctic blasts have swept the whole of New England and in many

PLACES IN MAINE THE TEMPERATURE IS TWENTY-FIVE BELOW ZERO. VERMONT AND NEW HAMPSHIRE TEMPERATURES ARE NEARLY AS LOW.

PROMINENT LAWYER KILLS SELF

Isaac M. Jordan, Embittered by Divorce, Ends Life.

Chicago, Jan. 14.—Isaac M. Jordan, society and club man, son-in-law of former Federal Judge Peter S. Grosscup, and himself one of the most successful members of the legal fraternity in Chicago, shot and killed himself today in the parlor of the Palmer House. A bottle containing arsenic was found on a table near by.

It was little less than a year ago that Mrs. Kathryn Jordan divorced Jordan in California on grounds of desertion and nonsupport.

Through the chapters of the story of Jordan's marriage and his life for the last fourteen years runs the name of a woman who is now the Duchess of Manchester. She was Miss Helene Zimmerman, of Cincinnati, when Jordan first knew her. In 1900 he was engaged to her. But she was an heiress of \$10,000,000, and the Duke of Manchester was persistent, and finally successful, in his effort to dislodge Jordan from her affections and make a place there for himself.

After this defeat in the lists of romance, Jordan plunged into his work. It was through his professional work that he became acquainted with Judge Grosscup and with the latter's beautiful daughter. Jordan immediately fell in love again, wooed Miss Grosscup ardently and successfully. They were married in 1903.

MARIE LLOYD DISFIGURED.

Some One Put Carbolic Acid in the Actress' Face Cream.

Winnipeg, Manitoba, Jan. 14.—With her face badly burned as a result of using face cream in which carbolic acid had been mysteriously placed, Marie Lloyd, the English actress, today could not say who was responsible for the hidden attack on her.

After the performance last night the actress began applying a cosmetic to her face. Before she discovered the effect it was producing her flesh had been seared.

Falling Wall Kills Fireman.

Boston, Jan. 14.—Ladderman Joseph Hackett was crushed to death under a falling wall, and two other persons were injured early today when fire destroyed the department store of W. and W. Bacon in the Roxbury district. The damage was \$150,000.

ARRESTED WITH LOVER, GIRL ELOPER COLLAPSES

Mobile Police Arrest Pair on Statutory Charge, Following "White Slave" Hearing.

Mobile, Ala., Jan. 14.—The notoriety that the obtained by running away from her home at Pemberton, N. J., and the ordeal of being dragged through the streets with Joel M. Foster, millionaire of Brown Mills, N. J., by police officers today was too much for Della Bradley. Tonight she occupies a room at a private sanatorium a nervous wreck.

The case against Foster was called at 4 o'clock. He waived examination and was released on a bond signed by W. Mayer, a Chicago real estate man. The district attorney ordered the girl held under \$500 to appear before the grand jury in May next.

The surprise of the day came after Foster reached his hotel, when Detective Warren Burch placed him under arrest on a statutory charge. The arrest of the Bradley girl was effected by Chief Crenshaw. The girl almost fainted when the police chief told what she was wanted for. The crowds on the streets followed her to the police station. The girl was not locked up, but placed in the office of the chief in charge of her father until the bondsmen qualified, and this took two hours' time.

The condition of the girl while in the office of the chief of police became so serious that a physician was summoned and she was hustled away through a rear entrance of the police station to the sanatorium, in a taxicab. The crowd followed the taxi for several blocks trying to get a glimpse of the unfortunate girl.

PRINCE TURNS DOWN THRONE.

William Will Rule Albania Only After Financial Guarantees.

Berlin, Jan. 14.—Prince William of Wied, who was chosen for the throne of Albania by the great powers, refuses to accept the offer until satisfactory financial arrangements have been made, according to an authoritative statement issued here today. He says he will receive a deputation of Albanians who have come to tender him the crown only after an international loan has been completed.

Kerosene Blaze Injures Woman.

Nashua, N. H., Jan. 14.—Mrs. Fannie E. Corey was burned probably fatally today by the explosion of an can of kerosene while she was thawing frozen water pipes.

LANSBURGH FURNITURE COMPANY'S

ANNUAL FURNITURE SALE

THE TIME TO BUY FURNITURE, CARPETS, RUGS, CURTAINS, &c., IS WHEN PRICES ARE DOWN—and prices are down now—down, lower than ever before.
